

Core Services

Sand Monitoring & Sampling

- Acoustic Sand Monitoring
- Online Sand Sampling
- Real-Time Particle Size Analyser
- Intrusive Sand & Corrosion Probes
- Acoustic Integrity Tester (Sand Gecko)

Erosion & Corrosion Monitoring

- Real-Time UT Wall Thickness Monitoring

Gas Monitoring

- Real-Time H₂S Analyser
- Real-Time Multigas Analyser

Sand Management Consultancy

- Tailored to address comprehensive platform or field-wide strategies, as well as specific individual sand production needs

Sampling & Injection Solutions

- Production and Exploration Sample Cylinders
- Sand Injection Equipment
- Downhole Sampling Equipment
- Subsea Sampling Equipment
- Mini Separators

Metering

- UT Flowmeter

Serving Diverse Industries with Tailored Solutions

- Oil and Gas
- Geothermal
- Marine
- CCUS
- Renewables
- Water
- Mining

Engineering Capability That Delivers

We're not just another service provider. We're the engineering partner that gets your challenges. From complex project support to solving technical roadblocks, our experts offer tailored solutions built around your unique goals.

We Bring Clarity to Complexity and Deliver Solutions that Work.

We help clients:

- Solve problems that don't have an off-the-shelf solution
- Add safety and certainty to high-risk operations
- Reduce operational blind spots
- Extend asset life and cut downtime
- Enhance performance and integrity through real-time monitoring

Navigate the Energy
Transition with **Real-Time
Monitoring** and **Zero-
Emission** Automated
Solutions for Improved
Sustainability and
Efficiency.
